## OVERVIEW

The purpose of Poteau School District's Continuous Learning Plan is to maintain consistent, positive communication with families and provide enriching academic experiences for students through distance learning opportunities. Poteau School District is committed to helping students continue to learn and grow by offering academic resources, guidance and support.

Communication and clear expectations are essential during this time of distance learning to show our learners and parents that we support them. We will extend grace and flexibility as we transition from traditional instruction to distance learning. This is a stressful time for many of our families, and we want them to feel hopeful and supported in regard to their child and school. We want students and families to know that the one thing that hasn't changed is the care and concern we have for our students.
